DISPATCH NO. STDA-0138

4 October 1956

25X1A  
TO : [REDACTED] 25X1A  
FROM : Chief of Station, [REDACTED]  
SUBJECT : GENERAL - OPERATIONS

Specific: [REDACTED] (Commander's Report)

25X1A

25X1A

1. This is Commander's Report on Mission No. 1305, Pilot [REDACTED] flown on 3 October 1956.

2. Mission planning, preparation and briefing: Excellent. Winds best yet forwarded by WECEN as ETA's were exact.

25X1A

3. [REDACTED] performance: Superior. Flight line deviation did not exceed 5 miles from take-off to landing.

4. Weather: As briefed. All targets were accomplished, although some were under scattered clouds.

25X1A

5. [REDACTED] Had 5385 feet of take. Lights indicated operation of [REDACTED] throughout full load.

25X1A

6. [REDACTED]: Preamp failed on left side. Roll operated duration of flight and due to flight path full coverage of all electronic signals should have been obtained.

25X1A

7. [REDACTED] performance: Excellent.

25X1A

8. Summary: Believe mission to be 100% successful in all respects.

25X1A
